Personal Address/Ex. 6

Thanks Danny. Good to hear from you.

I have a lot of staff on this response supporting the EPA Regions. I will forward your offer to people working in the environmental unit (EU) of the response structure. That's the part I used to lead or work within on past large responses. Can't guarantee anything will come of it.

I hope to see you at SETAC if you are going.

Marc

Hi Marc – I figure you are knee deep in a certain river in colorado – don't you get called for anything involving a sediment?

CBI/Ex. 4

Hope all is well and we get to cross paths at SMWG in December

Subject: Animas River

hi Randy

I hope all's good! I stopped down a bit ago & saw your door was closed and didn't want to disturb you.

I'd love to talk with you about offering assistance to EPA for Animas River and how best to go about that (quickly) – as I'm sure you've been thinking about this too.

A few “why us?” thoughts:

CBI/Ex. 4

Thanks, Margaret
